

A petition to the Florida Legislature: Creating Springs County Florida

By signing below I assert with full commitment and support, the creation of Springs County Florida from western portions of Alachua County Florida as Gilchrist County did in 1925 and appeal to all Florida Legislators to assert authority vested in them by the State of Florida Constitution to do so for the betterment of the affected citizens, businesses, and cities.

~~~~

Businesses should not have to compete against their own Government, as Alachua County has done

Cities should not have to worry about being sued by the County, as Alachua County has done

Citizens should not have to decide between paying rising taxes and paying for food, as Alachua County has done

The western portion of Alachua County is totally underserved by the Alachua County Board of County Commissioners in all matter of representation and service

Previous attempts to reach an amicable solution have been tried for years to no avail

I understand this will not be an easy task but I believe it is worth it for my family, and fellow citizens

I urge you to do everything in your power on my behalf to make Springs County a reality.

Thank you in advance for your service

Sincerely,
